WAS IT A LOGGER'S RUSE?

WARM SPRINGS, VA., December 9.-Special).-To-day's report seems to indicate that the rumor about there being mall-pox at O'Connell's Camp, in the edge of Pocahontas, eighteen miles west of this place, may have originated from the loggers putting up a notice of there being small-pox there in order to keep parties from coming into the camp from infected places. But other rumors seem to indicate that the small-pox is there. At any rate, the citizens in this part of the county are all being vaccinated, and the Superintendent of Public Schools has is-sued an order that all children not vac-

cinated must remain at home.

A very comfortable and nicely-stocked reading-room has been fitted up by the young men of this place to be kept open during the winter.
